STOCK MARKET WAS MORE ACTIVE

Early Strength Dissipated Before the Close of Day.

CONSIDERABLE LOSSES THE RULE

Notable in the Pacifics-Bonds Were Dull and the Price Movement Very Slight,

(By Associated Press.)

NEW YORK, Aug. 6.-The early deal-Ings in the stock market showed a survival of last week's strength, but it gave way in face of the day's developments. and the market yielded whatever gains had been established.

and the market yielded whatever gains had been established.

The final prices measured in comparison with the high level of the day show considerable losses as the general rule. The early movement was especially notable in the Pacifics, Northern Pacific taking the lead on the theory that its price was not commensurate with the level of Union Pacific and Missouri Pacific, Union Pacific also continued firm. Reading first preferred was taken in quite large amounts on the supposition that the dividend rate would be increased at to-day's meeting. The stock fell back 1/20 when the declaration of the same rate of dividend as the last was announced.

meeting. The stock fell back 177 when the declaration of the same rate of dividend as the last was announced.

Sugar weakened on the report of the shading of several grades of soft sugar, which was taken to indicate a renewal of competition in the trade. The more cheerful feeling regarding the fron and steel stocks which has been in evidence for some time past lifted prices in that group. Colorado Fuel was prominent. Preferred stock was bid to 125, at which price 100 shares changed hands. The bid price was then further advanced to 127½ without bringing out stock. This stock is cumulative, and is entitled to 2 per cent. In back dividence. The movement is supposed to foreshadow the payment of an instalment of the arrearage of dividend. The steel group weakened in the later trading. Accounts from Pittsburg of the extensions by the Carnegie looking to incorporation with some of the new combinations affected some of the group, especially Federal Steel and Steel and Wire.

and Wire.

The more serious phase developed in the Chinese question had some effect upon the market, although the London Exchange was closed, and the influence of the day could not be measured.

The serious phase developed on the day could not be measured.

upon the market, although the London Exchange was closed, and the influence of the day could not be measured. Preparations for export of gold on Wednesday were reported, although no definite announcement was made. Sterling exchange rose an additional fraction, but still falls short of a shade of what has been regarded as the export point to London.

The subscriptions in New York to the new issue of British Exchequer bonds are generally regarded as the immediate cause of the outward movement. It is evident that these subscriptions would not necessarily demand an outward movement of gold as the country's very large credits abroad would be ample to cover the subscriptions, but the urgent need of the London money market for gold may have led to some special provision that the underwriting syndicate should provide that metal in payment of the bonds, as a matter of course, in view of the fact that American railroad bonds of high grade are finding their way home by every steamer, and foreign railroads and industrial securities are not in favor with American capital, owing to the declining tendency of earnings abroad. Rumors as to the effect on the money market has crystalized in the conviction that no serious strain would result.

The bond market continued at a very low ebb of activity, and the movement of prices was slight. Total sales, par value, \$700,000. United States oid 4's declined 4 in the bid price.

Total stock sales were 1rs,300 shares.

MONEY AND EXCHANGE.—Money on call easy at 14/6/1½ per cent.; last loan at 1½ per cent. prime mercantile paper, 4/35 per cent. Then followed a sharp reaction of 12 to 15 points, with the market finally barely steady at a net advance of 4 to 8 points. Liquidation of long accounts was the feature of the early market and covering of the later business. Wide orders were scarce. Those reaching the market generally went to the short side of the account, particularly the orders from the South, following reports of weak spot markets there and a continued brilliant crop outlook. The reports from spinning districts and cotton markets furnished no encouragement, and the feature of the novement was the receipt of 25 bales new cotton at Galveston, against 28 bales the corresponding day last season.

To Rob Toll-House.

An attempt to rob the toil-house on Mayo's Island was made Sunday morning a little before 4 o'clock. Mr. Whitworth was on duty at the time, and was seated in the centre of the room, when suddenly there was a heavy lunge against the door at the north side. Almost instantly he fired in that direction, the ball passing through the door about as high as the man's shoulders, and lodging in the next house. The would-be thier ran up the island and disappeared. Another one, evidently on watch, when the shot was fired, ran across the bridge toward Manchester. At the time there was a considerable amount of money on hand, as on Saturday night the travel had been unusually large.

RESISTED THE OFFICER. RESISTED THE OFFICER.

Ervin Tucker, Andrew Johnson and Gilbert Rodgers, all of Richmond, came over the James Sunday and undertook to take the affairs of the municipality into their own hands. The trouble first started in the First Ward, on Second and Hull Streets.

Alex. Wright, who was en duty in that part of the town, arrived on the scene and put the three under arrest. Tucker resisted the officer, and a lively light followed, in which Wright received a bad lick on the eye. Tucker was badly used up, and the officers club was split in two. All three were lodged in jail Sunday night, and yesterday in the Police Court were sent to jail in default of line. Tucker was given thirty days; Rodgers, ten days, and Johnson paid his fine and was discharged.

The warrant against James P. Caudle, sworn out by his wife, was withdrawn. DEATH OF MRS. CRAIG.

Off Cape Hatterass,

(By Associated Press.)

NORFOLK, VA., August 6.—The United States Coast Steamer. Blake reached Town Point, near Norfolk, to-day and is preparing for her dangerous work off Cape Hatteras. This is to find the best available anchorage grounds for the Diamond Shoals lightship, that guards the most dangerous point on the Atlantic Coast.

The Blake will skirt the outer Diamond Shoal and chart it. The soundings will have to be done by men in small boats, and their work will be perlious, for the sea is always wild along these shoals.

The Blake is a wooden vessel and she will not put to sea until the weather conditions outside are favorable.

dear to me, at whose tombs I like to stand and think, and feel-moved perhaps by that strange emotion that often makes us seek companionship with the deal and those long gone from us. As I stood there, and as I wandered on by that granite monument that rears its head towards heaven, placel there by the women of Virginia before they had stopped even the shot-holes in their houses, to commemorate the valor and the virtues of the men of Virginia, I saw clustered around and about those humble graves that mark the soldiers' last repose, many of whom were friends and comrades; they were not those who fell where their manly bosoms met the storm of war—not those plerced by bullets and torn by shells; but they were those whose young lives ebbed out in the bospitals of Richmond, soothed by the gentle, ministering hands of the women of Richmond, lingering fong enough perhaps to carry on their wan cheeks to the other world the kiss of a mother, wife

Simmons and Sieum's, the minstrel show that had been so strongly recommended, was a great disappointment to the Casino patrons last night and a bitter disappointment to Manager Wells. He very promptly cancelled the contract with the company and left this morning for New York. He will bring the best talent to be secured to open with a matinee Wednesday. The two vaudeville acts that were booked to go with the show. Terrell and Starck, the trick and comedy 'cyclists, and the Howard Sisters, contortion and toe dancers, pleased and saved the show from total failure. These two acts will be retained, and Mr. Wells will add acts that are up to the standard.
